

Hello

My name is Cedric Amaya

Software Developer

amaya.cedric@gmail.com +1 (480) 620-4702 879 Hanover Ave., Sunnyvale, CA 94087 Major GPA: 3.25
<https://github.com/cedricium>

Experience

Volunteer Front-end Developer Mozilla

July 2017 - July 2018 Remote

Community contributor for the Firefox TestPilot Experiment, Notes.

- Improved the user interface by designing, implementing, and maintaining the dark theme
- Commenced the overhaul of the Quill.js library in favor of the CKEditor5 library
- Full list of contributions: <https://github.com/mozilla/notes/commits?author=cedricium>

Projects

should-i-cli command-line interface

June 2018 Node.js

- Command-line interface (CLI) used to generate random "yes" or "no" answers to a given question
- Developed to gain experience using oclif (Heroku's CLI framework) and practice writing tests for better code coverage
- Utilizes natural language processing and sentiment analysis to give more "humanely" answers (in progress)
- Featured on ProductHunt, 35+ stars on GitHub

RapidTabOpener WebExtension

June 2017 JavaScript, HTML/CSS

- Firefox WebExtension which opens all of the designated URLs in a single click of a button
- Increased personal efficiency at work by 500%
- ~50 daily active users and 1,200+ downloads

Firefly Web App

February 2018 Node.js, Express, Vue, SQLite, Bulma (CSS)

- Fullstack web app used for website landing page curation
- Frontend utilizes Vue.js and Bulma, backend uses Express.js and SQLite

Quotr Android App

April 2017 Java (Android)

- Android app used to query and display quotes from the Quotes on Design API
- Minimalist user interface with ability to share quotes
- Implemented an algorithm to dynamically determine whether or not to show a quote based on the quote's length and user's screen size

Education

Bachelor of Arts Computer Science

Foothill College Sept. 2016 - May 2020

Major GPA: 3.25
